THANK YOU FOR SUPPORTING MERCY IN 2016!

Thank you for contributing to the Mercy Hospital Foundation in 2016. In this report we have shared several stories of how your gifts have made a difference to Mercy Hospital in the last year and helped it to achieve its mission to heal and comfort the sick, and improve the health of the community.

On pages 10–11 we share exciting news about new equipment in Radiology that is the gold standard in mammography testing, and the community support we have received to help women who need diagnostic services and support.

On pages 2–3 you will learn about two brothers who, nearly 60 years ago, made a gift that continues to benefit patients today in significant ways.

On pages 18–19 we let you know how gifts to the Mercy Hospital Foundation enabled the hospital to expand Mercy On Call and the critical services they provide.

And on pages 4–5 we are showing what a difference color and fanciful thinking can have through the commission of a fantastical piece of art.

We also share the list of employees who received nursing scholarships as they continue their professional education in that field, and the college students who are receiving tuition support as they pursue degrees in nursing, pharmacy, physical and occupational therapy, and more. All of these are possible because of gifts to the Mercy Hospital Foundation.

By the time you read this letter you will have learned that Mercy Iowa City will affiliate with the Mercy Health Network effective June 1, 2017, making us part of a unified Catholic health system in Iowa. This is exciting news and more information will be shared in the coming months. It’s important for you to know that your gifts to the Mercy Hospital Foundation will remain here to be used exclusively in support of Mercy Iowa City. Our affiliation with Mercy Health Network will strengthen and be beneficial for both parties, continuing the mission and values of the Sisters of Mercy throughout southeast Iowa.

Thank you again for your support. Because of it you helped Mercy Iowa City to be named a 100 Top Hospital by Truven in 2016, making it one of the best 100 hospitals in the U.S. Your gifts make a difference for every patient. Thank you very much!

Chuck Hesse, MD, Chair
Mercy Hospital Foundation
Board of Directors, 2016

Margaret N. Reese, President
Mercy Hospital Foundation
Interim Director Marketing and Community Relations
In 1958 Mercy became the beneficiary of the generosity of two brothers, Frank L. and George A. Thompson. It is a touching story of how their vision and generosity continues to benefit patients at Mercy and is worth retelling.

Frank and George Thompson were the sons of Stephen H. and Mary J. Landon Thompson. Frank was a lifelong resident of Johnson County who farmed in the county for 35 years before moving to Iowa City. He was also a Vice-president and Director of the First Federal Savings and Loan Association.

Frank’s brother George died in 1947. Prior to his death, George made plans to set up a trust fund through his Will, the entire income of which would go to Frank. The Will also stipulated that when Frank died, $10,000 of the trust fund should go to Mercy Hospital.

At the same time, following World War II, many aspects of American health care began to rapidly change. Along with a post-War population boom came automation, a building boom in hospital construction under the Hill-Burton Act of 1946, the emergence of pre-payment health plans, advances in surgical techniques and more. With all of this Mercy Hospital needed to expand its facilities far beyond its 1908 building to accommodate the area’s growing needs.

In late 1945, Dr. George Scanlon, representing the medical staff, convinced the Sisters of Mercy to enlarge the hospital and modernize the facility. In late 1946 plans were finalized and the Sisters were poised to ask the community for the first time for financial support. The hospital expansion would more than double the size of the building and the Sisters needed gifts from the community to help make it happen. The groundbreaking took place on October 10, 1947.

The book, From Obscurity to Distinction: The Story of Mercy Hospital, Iowa City, 1873-1993, by Sister Mary Brigid Condon, R.S.M., served as a resource for this story.
After George Thompson’s death, and knowing that the Sisters were working hard to raise funds to support a much needed hospital expansion, Frank decided to make during his lifetime the gift his brother had asked for through his Will. On Christmas morning, 1948, Frank Thompson presented a $10,000 check to Sister Mary Rita, Superintendent, to help equip six new operating rooms in the new addition.

Frank died on December 16, 1957, 10 years after his brother George. In George Thompson’s Will, he directed that upon the death of Frank, the assets from his estate would be incorporated with those of his brother’s estate. The assets from these estates were invested and named The Thompson Brothers Trust, a permanent fund to be administered by Iowa State Bank and Trust Company of Iowa City (now MidWestOne Bank) as a source of revenue for Mercy. The brothers stipulated that the annual income earned by the Trust be divided equally to be used in two ways, providing for the needs of its surgical facilities, and helping to pay for the medical care and hospitalization of Johnson County residents who were unable to do so themselves.

Today, nearly 60 years after Frank’s death, Mercy continues to receive support from the Thompson Brothers Trust. Each year patients who cannot pay their bills in full are identified to receive assistance using funds from the Trust. And each year the Mercy Foundation notifies MidWestOne Bank of critical needs for surgery equipment. In 2016 the hospital acquired two new Stryker system 7 sternal saws, used to split the sternum to allow access to the heart during cardiac surgery, for the Cardiovascular Operating Room, thanks to the Trust.

The legacy of Frank and George Thompson has been hundreds of thousands of dollars of support for patients needing assistance to pay for their health care, and to ensure that surgeons have the equipment they need to provide optimal care. The Thompson Brothers Trust is a wonderful example of how making a permanent gift can benefit so many and fulfill the wishes of donors to help others. The Thompson Brothers Trust and the intentions of George and Frank Thompson align perfectly with Mercy’s mission, to heal and comfort the sick and improve the health of the community.
Gifts to the Mercy Hospital Foundation make the acquisition of artwork possible and every year a few new pieces are either purchased or received as gifts. In 2016, thanks to the support of a gift from Hills Bank & Trust Company, the Foundation was able to commission Locally Grown which has been installed on level 2 of the hospital, near the elevator to the Maternal/Child Unit.

The Locally Grown mural is a work by local artist Beppie Weiss and, measuring 28 x 7 feet in size, is a visual delight that entrances young and old alike. When Beppie visited Mercy to supervise the installation of the seven panels that make up the mural, the first time she had seen them all together, she offered to create two additional panels to flank the elevator doors to the Maternal/Child Unit.

Locally Grown is also a fund in the Mercy Hospital Foundation that benefits moms and families before, during and after delivery as well as babies in the Nursery and NICU, pediatric patients who are cared for in the Pediatrics and Emergency Care Units, and those who receive surgery at Mercy.

With a gift of $100 to the Mercy Hospital Foundation for the Locally Grown Fund, a baby’s name and birthdate are engraved on a plaque representing the month they were born and added to the Locally Grown donor wall for a period of one year. At that time the plaque is mailed to the family as a lovely keepsake celebrating their child’s first birthday.
McAuley Legacy Society

McAuley Legacy Society donors have remembered Mercy or made known their intention to leave a gift through their estate. This allows the Foundation staff to direct future gifts to areas that are meaningful to the donor. If you are considering leaving an estate or other planned gift to the Foundation, please let us know so that we may work with you to direct your gift to the area(s) you wish to support. To learn more about planned giving, visit our Web site at www.mercyic.org/Mercy Foundation.

Mercy Legacy Club

The Mercy Legacy Club acknowledges those who have made significant contributions to the Mercy Foundation by making annual gifts of at least $1000, cumulative gifts of $10,000 or more, and/or have made plans for an estate gift to benefit Mercy.
2016 Honor Roll

All gifts made to Mercy Iowa City through the Foundation are greatly appreciated and help fulfill its mission to heal and comfort the sick and improve the health of the community. We appreciate the commitment of all who made gifts in support of Mercy programs and services during the 2016 calendar year. Contributions are recognized at the level of their cumulative giving for the year. Names that are in bold represent members of the Mercy Legacy Club who have given $1,000 or more in 2016, have cumulative giving of at least $10,000, and/or have made plans for an estate gift to benefit Mercy.

Advanced Breast Cancer Detection

In October, 2016, Mercy Iowa City added 3D Mammography to its breast cancer detection capabilities. The facts are that 1 in 8 women living in the U.S. will be diagnosed with breast cancer within her lifetime, 3 out of 4 of those women will have no known risk factors and 8 out of 9 will have no family history of breast cancer.

“We were absolutely thrilled to be able to further refine our mammography services by adding Genius 3D Mammography equipment and exams for our patients,” said Heidi Berns, Administrative Director, Radiology. “This is the most advanced equipment available and we consider it the gold standard for patients.”

Gifts to the Mercy Hospital Foundation helped make it possible to add this equipment. The 3D Mammography exams are the same as conventional 2D exams, but the results are more accurate. The 3D exam allows doctors to examine breast tissue layer by layer so that fine details are more visible. In 2D exams, the breast tissue is viewed as a flat image.

National statistics indicate that 3D exams detect breast cancer an average of 15 months earlier, reduce callbacks for retesting by up to 40% and find 41% more invasive cancers than conventional mammograms. “With this new equipment we know we are giving our patients the best care available anywhere,” said Heidi.

To help ensure that patients who come to Mercy and are uninsured or cannot afford mammograms can receive screening and diagnostic services, the Mercy Hospital Foundation has created a Breast Health Fund. “The Breast Health Fund is used for mammograms and follow-up diagnostic testing, if needed, for those who can’t afford it, breast cancer awareness, and patient education and supportive care for women who have been diagnosed,” said Jessica Williams, Mercy Breast Care Coordinator, Mercy Oncology.

Several very generous groups have worked tirelessly to raise funds to donate to the Breast Health Fund. “In addition to providing more patient education and supportive care,” said Jessica, “between July 2016 and March 2017, more than 54 women were able to have mammograms and in a few cases, additional diagnostic testing, because of this fund. This wouldn’t have been possible without the gifts from Team Breast Friends, Surviving In Style and Body Moves Fitness and Wellness Center.”

Team Breast Friends

Team Breast Friends is a group of local women that works tirelessly to raise money to support women who have been diagnosed with breast cancer or need help paying for mammograms and other diagnostic tests. They do this through many activities including an annual golf tournament and plant sale, and the 5K Rack Run each fall. The group generously donates proceeds of the 5K Rack Run to Mercy’s Breast Health Fund. This event has contributed more than $16,000 to support patients at Mercy.
Surviving In Style
In both 2015 and 2016, Tracy A. Lacina, owner of Skin Deep Salon and Spa, and Cheryl Schlote, manager and Certified Mastectomy Fitter, organized an incredible event called Surviving in Style. The event included a luncheon, fashion show and speakers. The models were women who have had or were being treated for cancer. Each was escorted by their caregiver and received complimentary hairstyling, makeup application, before and after photos, and then shared their individual cancer stories with the audience.

Tracy and Cheryl shared the proceeds from these events with the Breast Health Fund, contributing $7,000 to support patients at Mercy.

Body Moves Fitness and Wellness Center
For the last several years, Body Moves studio owner Beth Pelton has organized a Zumbathon to benefit the Breast Health Fund and support women receiving treatment for cancer at Mercy Iowa City. Beth and her team ask that participants in the 90-minute Zumbathon consider a free-will donation when they arrive to dance their way to better health and fitness. Through their energetic generosity, more than $2,500 has been contributed by Body Moves Fitness and Wellness Center to the Breast Health Fund.

“We are deeply grateful to all of the volunteers and participants who made these events happen and supported them so that funds could come back to Mercy to benefit patients here and provide education in the community,” said Margaret Reese, President Mercy Hospital Foundation. “They are helping Mercy to fulfill its mission to heal and comfort the sick and improve the health of the community, which we are all doing together in our own ways. By working together, we can make an impact.”

Members of Team Breast Friends present proceeds from their September 25, 2016, 5 K Rack Run to Margaret Reese (left) and Rose Hemann, Mercy Breast Imaging (right).

Cheryl Schlote (left) and Tracy Lacina (middle) present proceeds from Surviving in Style to Margaret Reese.

Staff Excellence Awards

Each year Mercy nurses, nominated and selected by their peers, are honored with special tributes and cash gifts in recognition of outstanding and compassionate nursing care. Support staff are honored with the Dr. George S. and Kathryn B. Anderson Friend of Nursing Award and the T. T. Bozek Friend of Nursing Award.

WAYS OF GIVING

BY MAKING A GIFT TO THE MERCY HOSPITAL FOUNDATION YOU HELP MERCY IN ITS MISSION TO HEAL AND COMFORT THE SICK AND IMPROVE THE HEALTH OF THE COMMUNITY IN THE SPIRIT OF JESUS CHRIST AND THE CATHOLIC TRADITION OF THE SISTERS OF MERCY—THANK YOU! THERE ARE MANY WAYS TO MAKE A GIFT, SOME OF WHICH ARE LISTED HERE. FOR MORE INFORMATION, PLEASE INDICATE YOUR INTEREST ON THE ENCLOSED CONTRIBUTION FORM AND RETURN IT TO US, OR CALL, EMAIL OR VISIT OUR OFFICE.

Cash Gift
The simplest method of providing support for Mercy is with a cash gift. These gifts may be made with cash, a personal check, or with a credit card on-line by going to www.mercyiowacity.org/MercyFoundation and clicking “Donate Now.”

Pledges and Direct Debit
Annual support at every level is crucial to maintaining the quality of our programs and services. You may also set up a pledge or direct debit plan to give monthly, quarterly, or annually.

Planned and Major Gifts
These may include:
• Appreciated securities
• A charitable bequest in your will or trust
• A beneficiary designation in your retirement plan such as an IRA or annuity
• A beneficiary designation of all or a portion of a life insurance plan
• A life income gift through a Charitable Gift Annuity or Charitable Remainder Trust

Honor or Memorial Gifts
A gift in honor or memory is a thoughtful and meaningful way to recognize a loved one, friend or colleague. The Foundation will notify the person you have honored, or the next-of-kin for a memorial gift, that you have made a gift and we will recognize them in the Foundation’s annual Report to the Community.

Honoring Mercy Caregivers
Making a gift to the Foundation is a wonderful way to recognize the exceptional care you or a loved one received from the staff at Mercy. We will send a card to the healthcare professional(s) you have honored to let them know how much you appreciated their care.

Matching Gifts
Many contributors multiply their support to the Foundation by making use of their employer’s matching gift programs. Please ask your employer’s Human Resources Department for the necessary form to send with your gift.

Recognition
The Mercy Legacy Club recognizes donors who give $1,000 per year or more. Gifts of $1,000 or more specifically to Mercy Hospice Care are recognized on a donor wall in the unit. Gifts of $5,000 or more to any area or combination of areas or a cumulative gift total of over $5,000 are recognized on the donor wall in the hospital lobby near the skywalk entrance. All donors are acknowledged in the Foundation’s annual Report to the Community.

Donating online is easy!
Visit www.mercyiowacity.org/MercyFoundation and click on “Donate Now.” If you’d like to make your gift in memory or honor of someone special, it’s easy to do!

Visit www.mercyiowacity.org/MercyFoundation and click on “Donate Now.” If you’d like to make your gift in memory or honor of someone special, it’s easy to do!
AREAS OF SUPPORT

YOU MAY CHOOSE TO DIRECT YOUR GIFT TO ANY OF THE FOLLOWING AREAS.
IF YOU HAVE ADDITIONAL INTERESTS OR QUESTIONS, PLEASE CONTACT US FOR MORE INFORMATION.

Area of Greatest Need-Unrestricted
Many donors choose not to direct their gifts to any particular area, making them available for discretionary use in the areas listed here as well as direct patient care, patient and community education, support groups and more.

Arts Program
The visual and musical arts programs help to create a healing environment for patients, family members, visitors and staff. Mercy’s art collection featuring local and regional artists continues to grow through generous donations that allow new acquisitions each year. And our Steinway pianos and guest artists bring the gift of music to everyone.

Endowment Funds to Support Critical Programs
Gifts and bequests are often received with the stipulation that the principal be kept intact and invested to create an ongoing source of income for a specific purpose. Mercy has created permanently endowed (invested) funds to benefit Hospice Care, Mental Health Services, Nursing Scholarships, and equipment and facility needs of the hospital. Individual donors have also made gifts to create funds to benefit programs, such as Cancer Care, that are important to them. A portion of the income earned each year from these funds provides a reliable income stream to support these areas. Additional gifts may be added to these funds at any time. By creating or contributing to a permanently endowed fund, you leave a lasting legacy to support Mercy’s mission and services into the future.

Equipment and Facilities
Gifts supporting equipment and facilities needs are very important. Naming opportunities exist for facility expansion and remodeling projects.

Health Careers Scholarships
Health Careers Scholarships are awarded annually to high school seniors graduating from schools in Mercy’s ten-county service area who plan to pursue a degree in the health sciences. Those selected receive scholarships of $1,000 per year, renewable for up to four years.

Nursing Education Fund
The Nursing Education Fund is a permanently endowed fund that awards scholarships to Mercy employees who are continuing their professional nursing education. You may also create a permanently endowed nursing scholarship with a gift of $20,000 or more made at once or over a period of time to honor or memorialize someone special to you.

To Make Your Gift
To contribute to Mercy please send your gift payable to Mercy Hospital Foundation with your completed contribution form in the enclosed business return envelope. You may also make gifts on-line at www.mercyiowacity.org/MercyFoundation and clicking “Donate Now.”

margaret.reese@mercyic.org

Thank you!
“MERCY ON CALL DOES SO MUCH, AND SO MANY PEOPLE DEPEND ON IT FOR HELP. IT’S A GREAT PROJECT FOR THE FOUNDATION TO HAVE SUPPORTED AND ALIGNS PERFECTLY WITH THE HOSPITAL’S MISSION TO HEAL AND COMFORT THE SICK, AND IMPROVE THE HEALTH OF THE COMMUNITY.”

MARGARET REESE, PRESIDENT OF THE MERCY HOSPITAL FOUNDATION
Did you know that Mercy On Call has logged more than 1,100,000 calls since the first one in 1995? That’s a lot of questions, physician referrals and reservations.

In 2017, with support from gifts to the Mercy Hospital Foundation, Mercy On Call is able to respond to even more calls every day. On April 1 the call center will begin covering overnight hours and become available 24/7 including holidays. “We had always stopped taking calls at midnight, starting again at 7 am,” said Teresa Claeys, Nurse Manager of Mercy On Call. “We’re thrilled that we are now able to assist callers with their questions and health concerns at all hours.”

“We knew the need was there to expand coverage,” said Margaret Reese, President of the Mercy Hospital Foundation, “but we didn’t have the space to add staff to make it happen. With the support of hospital administration we came up with a plan to switch the physical location of the Foundation with Mercy On Call which has worked out perfectly.”

Making the switch for Mercy On Call began at the beginning of September, 2016 and was completed in October. The former Mercy Hospital Foundation space was redesigned to include 13 offices and work stations with sit-stand desks for Mercy On Call. Two additional nurses have been added and everyone now has their own workspace. “It’s been a fantastic change,” says Teresa, “everyone is so excited about the new space and expanded services.”

“Gifts to the Mercy Foundation made it possible to provide the support necessary to remodel the office space and add work stations,” said Margaret. “Mercy On Call does so much, and so many people depend on it for help. It’s a great project for the Foundation to have supported and aligns perfectly with the hospital’s mission to heal and comfort the sick, and improve the health of the community.”

Mercy On Call is a service where nurses triage health concerns, advising patients on whether they should seek medical help immediately, wait to see their provider the next day or simply wait it out (of course, nurses would provide advice on how to do that as effectively and comfortably as possible). Nurses also assist clients in finding the primary care or specialty provider best suited to them and scheduling appointments. They also answer questions about health concerns, register clients for programs, classes, screenings and events, and refer them to appropriate agencies or services for additional assistance. And, nurses make thousands of follow-up calls to patients who have been treated in the ER or released from other areas of the hospital to assess how they are doing at home and answer any questions they have. They’ll now be able to do all of this 24/7.

Members of the Mercy On Call staff.
